

make IT AT home

Bookshelf Book Nook

Provided in the kits:

- Shoe box
- Fairy lights (battery included)
- Book pages
- Bookshelf “backdrop”
- Miniature chair and side table template
- Miniature paper area rug
- Miniature paper wall art
- Miniature book

You will also need:

- Scissors
- Glue
- Tape

1. Cut the lid from the shoe box.
2. Unravel the fairy lights and remove the clear tab from the battery pack.
3. Feed the string of lights through a gap at the top of the box.
4. If a gap is not visible, carefully disassemble the shoe box, feed the string through, and reassemble the box.
5. Tape the battery pack to the back of the box.
6. Glue the book pages like “wallpaper” along the inside and back of the box.
 - Tip: wrap the paper around the edges and outside of the box for a cleaner look.
7. Cut out the bookshelf “backdrop” and glue to the back of the box.
8. Tape the fairy lights to the “ceiling” like an overhead light or along the edges of the box.
9. Cut out the chair template along the black solid lines.
10. Fold the chair template along the dotted lines.
 - Tip: fold the pattern “inside out” so that the lines and dots aren’t visible.
11. Using dots of glue, assemble the chair.
12. Repeat steps 9 – 11 for the side table template.
13. Cut out the art work and throw rug.
14. Position the miniatures inside the book nook.

View the instructional video on our YouTube channel and Facebook page beginning Monday, October 4.
