

make IT AT home

Paperback Pumpkin

Provided in the kits:

- Book (50-60 pages needed)
- Pumpkin template
- Brown construction paper
- Orange marker

You will also need:

- Scissors
- Pencil
- Glue (tacky or hot glue will work best)
- Paper to cover your workspace

1. Begin by tearing approximately 50-60 pages from a book.
2. Using the pumpkin template, trace and cut out pages.
3. Fold each page symmetrically in half.
4. Stack the pages together and trim the edges for an even look.
5. With the pages stacked tightly together, color the edges with an orange marker.
6. Glue the book pages together, one side at a time to create a sphere.
 - Allow glue to dry completely.
7. Using a pencil as a guide, roll and glue the brown paper to create a stem.
8. Apply glue to the stem before inserting it into the center of the pumpkin.
 - Allow glue to dry completely.
9. Fan out pages to create the desired pumpkin shape.
